**To use our Ring Sizer, follow these steps :**

1) Select **Print**.

2) **IMPORTANT**: in 'Page Handling' ensure 'Page Scaling' is set to 'None' **or** on older browsers: 'Fit to Page' options are un-checked on the print command screen. **i.e.** so the page is printed at 100%.

3) Cut out the sizer.

4) Make a slot in the sizer by cutting along the dotted line.

5) Roll the sizer into a circle with the numbers on the outside.

6) Insert the end of the tab into the slot. **Figure A**

7) Place the sizer around your finger and pull the tab through the slot until the paper is snug around your finger.
8) Read your Dexter Finger Size on the scale.

ALTERNATIVELY: Take a piece of good quality (non stretchy) string or wire, wrap it snugly around your finger, and measure the length in mm – As simple as that!

Figure A

In this example, the ring size is **dxf-117**

In this example, the ring size is **dxf-116 ½**
